

General Information

Over the year 2019 DHL/EAT has successfully filled numerous positions in the cockpit.

Unfortunately the recruitment of First Officers and Captains on all fleets was paused during 2020. On the A300 and B757 fleets no short-term assignments or freelance positions will be published until further notice.

Due to the Coronavirus pandemic also DHL is facing a challenging and unusual market situation. Although DHL/EAT is not affected as much as other airlines there is unfortunately no demand for additional crews on the A300 and B757 fleets at the moment.

Delightedly we can offer **First Officer positions on the A330**. Please check the job advertisement on career.aero for requirements and feel free to apply if you meet them.

Network requirements vary and additional positions may therefore become available in the future, but it is very difficult to estimate a timeline for that. As soon as we start recruiting again open vacancies will be published on career.aero. It is not possible to apply for the A300 and B757 fleets at the moment.

Please register by setting up your profile with Interpersonal and check back regularly to stay up-to-date. Please note that only applications via *interpersonal GmbH* will be considered.

For more information visit [DHL/EAT](#).

Once additional positions on the A300 and B757 become available and recruitment resumes, the following candidate requirements apply for First Officers:

Skills required:

- Above standard professional skills
- Profound aviation English language fluency (minimum level 4 already endorsed in the licence)
- German language desirable
